

## Footprints in My Soul

from the first steps at camp  
By Ernie Evans

*"My experiences at camp have been awesome."*

"Moments with the Master Bible Camp has really set my life strait. I started going about seven or eight years ago, back before they had the Lodge, the new cabins, running water, and electricity connected to the camp grounds.

Though you got a little dirty, you still had fun, in fact there wasn't many times when we weren't having fun.

Over the years camp has been blessed with a lot more material needs, but nothing can take away the laughter and joy each and every camper shares. My favorite part of camp is after a long day of riding horses, playing games, and learning about Christ our Lord, the sun fades away, while we sit and talk. The bugs and the sound of the swings screeching plays an overwhelming melody. You feel like

you can just sit out there all night.

In the morning I would usually wake up before daylight, make sure a few of my friends woke up, and then head out to the showers. We always watched the sunrise during our walk to the showers. Of course this was back before camp was blessed with six showers, four six toilets, sinks

and other needs, that is now conveniently stationed in the cabins. Camp has come a long ways and is still being blessed.

Before I went to camp I always

went to church. I really wasn't a bad kid, but if it wasn't for camp I wouldn't know as much about our Lord and savior as I do now. I've been through many experiences at camp when I knew the lord was present. You can feel him all around the camp. I've went through many prayers where I just broke down and cried, realizing how much God really loves and cares for us. When we sing you can just feel God through the words. At first not many people choose to sing but by the third day, everybody is singing along and laughing, just having a good time.

Faith and Eric have a talent in saying things where we can understand them. They've made such an impact on my life and others as well.

People say things just happen by luck and chance but everything happens for a reason and through Gods purpose. There is a purpose why

### New Book

**\* Please keep Karen long in your prayers.**

**Karen is our friend, who had brought her animals out and was going to have a petting farm here.**

**Her cancer is terminal. She has two sons**

**18 and 20.**

- **Many of our teens as they are making life decisions now.**
- **Shea as she starts a new job.**
- **Us, as we plan activities**

• **Weekends with the kids.**

• **Parents to see Christ in their kids and want to join in salvation**

• **Money to pay bills for our weekend activities.**

• **Eric with healing of shoulder and operation**

**God is so faithfull in supplying. I don't want to take Him for granted!**

**We covet your prayers!**
