

Moments with the Master Ministries Inc

March is here and we are marching into our 16th summer for camps here on the Mountain! Cant wait to see what God has in store for us this year!

Early March and snow covers the ground and we are pretty much cabin-bound. Although it doesn't look like much is going on at Moments we are busy and so is God.

We are busy planning camp dates. This is hard to do as schools have been closed for almost 2 weeks due to snow with more days off to come. Once we know when school will be out we can solidify camp dates. Also busy getting help lined up, speakers, food, supplies and materials together. Plus raising funds and scholarships. And, in reality spring isn't far off which means general spruce up after winter, grass will be growing—much cutting and weed eating to be done.

God is at work also. He has already touched hearts to sponsor kids for camp.
