

**Work groups continue to work for us even though they have left**

We thought our living area would be temporary for a short time, but God has been teaching us humility and other things.

The two workgroups that were here last summer both had the burden to build us a house! **This has been a prayer of mine for ten years.** The churches had no idea the other was coming and they are hours away from each.

The connection came after I shared a quote from a lady from one church to the other church when the first one called to share their mission. **“You have things nice for the campers. Now you need a nice place for yourself.”**

Now both are raising money to accomplish this mission.

They are asking that you, **our supporters and encouragers to pray about what you can do to help.**

They plan to take down our place in April and start the building process shortly after that. Then going into summer. The groups are from Michigan and will come for a week or two at a time.

Merry  
Christmas!!!!

May God bless  
you richly  
with his love  
and tender  
mercies.
