Made the last week of camp, teen week, so very special. their goal is making relationships and loving on our 52 kids!

There was wonderful teaching and the spirit of the Lord moved.

Chris below, right, said his mom wanted to come help in the kitchen. He was so excited because he knew if his mom got here and if we had a

week full of the spirit like we did last year, that she would open her heart to Jesus. Guess what? 74 year old Nancy Radley could not resist the night all the tears were pouring out and people were getting their hearts right with our Savoir

Timothy, 12, to the left was also saved. He just stole my heart. Especially the last night as he kept coming up and hugging me.

I thought there must have been something wrong. Finally with tears, he said, "We have to go home tomorrow."
