

# ERIC'S NEWS

**We almost lost Eric.** He had knee replacement surgery and was doing great. Then two months out, smack in the middle of camp, he became deathly ill with a staph infection and was in the hospital for eight days. Then sent home with a IV drip for 30 days.

Praise God he is much better, acting and looking like himself again. He is now taking an-

tibiotic pills four times a day.

He is able to use a walker, but with his back pain he cant go far.

So thankful for his motorized chair. And for the VA as they take care of all of his needs.

Still no news about what they will do for the two small brain aneurysms.

**Thank you all for your prayers!!!!!!**

## NEEDS

**We are in need of:  
Lots of prayer!!!!**
